I'm so sorry to hear about Mike. We went to school for drafting in Montgomery and worked together for many years. He was a good friend also. We spent time out of the lake with the whole family when his kids were young. I hate I lost touch with him when I moved from Alex City. I enjoyed Mike's humor and we worked really great together. He did so much of the detail design work on so many buildings all over the southeast and later in Mexico. We would many nights running copies of plans. We could put a plan out in two weeks for a sewing plant! I always miss those days of planning and design and very proud of the work we did. He was closer to me for 20 years than my own brothers.
